SUMMARY

Final year CSE student and problem solver who thinks critically and loves debugging, specializing in developing intelligent agents and agentic workflows to automate processes. Proven ability in full-stack development, designing REST APIs, and building scalable UIs. Self-starter passionate about taking ownership, moving fast, and leveraging advanced AI and machine learning to drive efficiency and enhance productivity.

EDUCATION

- **Bachelor of Technology in Computer Science and Engineering** (Sep 2023 – Sep 2027)
Vellore Institute of Technology, India
Cumulative Grade Point – **8.70 / 10.0**
Courses: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning

WORK EXPERIENCE

- AutoLoad AI Pvt. Ltd** (Ongoing)
SDET Intern Noida, India
LLM-Powered Automation and Agentic Workflow Engineering
 - Developing intelligent AI agents to automate software testing workflows, aiming to eliminate the need for manual human effort wherever possible.
 - Debugging, testing, and pushing automation features live in agile sprints, gaining exposure to production-grade architecture.
 - Architecting modular backend services in Python and integrating with scalable databases to handle complex agentic workflows.
 - Integrating internal REST APIs with CI/CD workflows, optimizing automated solutions for maximum performance and correctness.
- Indian Council of Agricultural Research – IISWC** (Dec 2025)
SDE Intern Dehradun, India
Backend and Data Workflow Engineering
 - Redesigned and modularized legacy data processing workflows in a version-controlled Git environment, leveraging strong fundamentals in Python.
 - Integrated environmental feature sets into ML pipelines, enhancing predictive accuracy for soil erosion risk models.
 - Refactored automation layers for data ingestion and report generation, enabling end-to-end execution with minimal configuration.
 - Designed REST APIs with FastAPI to build scalable backends for real-time data querying, improving overall platform responsiveness.

PROJECTS

- Krishi Rakshak** [\[Live\]](#) [\[GitHub\]](#)
 - Built a full-stack ML platform for agricultural analysis, automating data validation and predictive modeling workflows.
 - Designed REST APIs for real-time inference, integrated with a React/Next.js frontend to build a scalable UI for interactive data visualization.
 - Implemented SQL-based data persistence with databases like PostgreSQL to support longitudinal analysis of environmental datasets.
 - *Tech: Python, Node.js, React.js, PostgreSQL, Machine Learning, REST APIs, HTML/CSS*

Dec 2025

Employee Attrition Prediction Management System *[Live]* *[GitHub]*

- Engineered an end-to-end predictive analytics pipeline from raw data ingestion to model deployment and reporting.
- Executed extensive feature engineering and hyperparameter tuning to optimize model interpretability and precision.
- Built automated batch analytics workflows visualizing insights for stakeholder reporting.
- *Tech: Python, Pandas, SQL, XGBoost, Scikit-learn, Matplotlib* Nov 2025

TikiTaka AI | Esports Strategy Generation *[GitHub]*

- Developing an AI-driven full-stack analytics platform that generates winning tactics for esports teams by analyzing extensive match-played metadata.
- Engineering machine learning models to identify gameplay vulnerabilities, providing strategic workflows to reduce losses and increase win probabilities.
- Utilizing strong fundamentals in JavaScript/TypeScript and Python to build scalable UIs and design robust REST APIs for data integration.
- *Tech: Python, JavaScript/TypeScript, React.js, Node.js, PostgreSQL, AI/ML, REST APIs* Ongoing

SKILLS

-
- **Languages:** JavaScript/TypeScript, HTML/CSS, Python, Java, SQL
 - **Frameworks:** React.js, Node.js, Next.js, FastAPI, MVC frameworks
 - **AI/ML & Auto:** Agentic Workflows, Intelligent Agents, ML, LLMs, Pandas, Scikit-learn
 - **Backend/DB:** PostgreSQL, REST APIs, System Design, Microservices, API Integration
 - **DevOps & Tools:** Git Version Control, CI/CD Workflows, Docker, AWS, Performance Optimization

CERTIFICATIONS

-
- AWS Certified Developer - Associate June 2026
 - AWS Certified AI Practitioner June 2026
 - Oracle Certified Data Science Professional Sep 2025

POSITIONS OF RESPONSIBILITY

-
- **Lead, Public Relations and Outreach,** UI/UX Club, VIT Bhopal (Aug 2025 – Mar 2026)
Spearheaded outreach strategy, designing multi-channel campaigns that expanded club visibility and drove increased event attendance. Coordinated logistics for workshops and design sprints, strengthening cross-functional collaboration.
 - **Core Member, Content Team,** AI Club, VIT Bhopal (Nov 2024 – Mar 2025)
Produced technical explainers on ML and AI topics, distilling complex concepts for diverse student levels. Supported the organization of AI speaker sessions and hands-on workshops to foster an active learning community.
